## MindMAX<sup>IEMS</sup> -Integrated Enterprise Management System

MindMAX<sup>IEMS</sup> is an intelligent RFID integrated enterprise management system that helps you manage small and medium sized organizations effectively. This software has been designed to revolutionize and simplify the work processes, making office management an easy task. It offers a multitude of powerful tools to authorized users of an Enterprise. All the employee data can be kept in one place, organize them and make them available for searching, grouping and reporting. The software can be configured and implemented to meet specific business needs and then easily upgraded or reconfigured as the business changes.

MindMAX<sup>IEMS</sup> can handle multiple reports format and is capable of working as both stand alone and as well as a networked application. The product can handle huge database for any large enterprises at ease in any RDBMS environment.

The MindMAX<sup>IEMS</sup> consists of the following modules.

- ✓ Human Resource Administration System
- ✓ Payroll System
- ✓ Access Control and Management System
- ✓ Training Management System
- ✓ Recruitment Process Management system
- ✓ Library Management System
- ✓ Digital Content Store
- ✓ Network Multimedia Reminder

## MINDREMI NDER

Mindreminder provides the facility to manage the events/appointments with the help of reminders. It has three types of reminders - text, audio video reminders that can be set to anyone within the network and also to self. The built in Agent in the tool will guide the user while using the application. Mindreminder can be used as an effective tool for time management !

## MindwebX

Mindlogicx Infotech Limited is proud to have brought you the world's first intelligent Web-based Examination System for online conducting of examinations, manage the examination centres, manage the question bank leading to mass evaluation and assessment process. MindwebX is based on a secured browser / server framework which carries out the examination and auto-grading for objective questions. MindwebX has revolutionized the entire examination processes by diligently meeting the requirements of the industry in conducting online examination from online registration of candidates and upto result publication. The new system is futuristic and scalable and can be deployed in universities, large corporate, banks, etc., for online examinations, common entrance examinations, mass recruitment and for conducting skills upgradation tests.

The question banks are managed online and the questions can contain multimedia contents also. Distributed authoring in the system enables multiple authors to collaborate and the workflow management ensures and manages to track the entire system for various parameters.

The system manages the schedule effectively for exam centers or individuals and prints the exam hall entry pass with multi-level verification processes including photograph of the candidates. The question papers are delivered in a

highly secured manner with 128 bit encryption technology to provide the peace of mind to the stake holders. The system enables the user to view results on demand and has a built in powerful and flexible reporting system to analyze the results. The system also enables the user to have campus level examinations conducted with ease.

Advanced features like comprehensive test engine with randomization of questions and choices and role-based security allowing multiple levels of permissions for authors and administrators are the latest additions in the MindwebX Pro edition.

The system has a powerful but easy to use question bank authoring system with different question types like multiple choices, true or false, fill in the blanks etc.,

Plat form	Any platform that supports .Net
Technology	ASP.Net, XML, Java Script and HTML
RDBMS	Any RDBMS such as Oracle, SQL Server, MySQL
Browser	Internet Explorer 5.0, Netscape 5.0 or later.

MINDLOGICX INFOTECH LIMITED

MindSpace The gateway to the Tele Education platform. MindSpace is the new paradigm, a new order and a new world of education beyond boundaries. MindSpace provides the complete IT framework to administer an end-to-end Tele Education delivery system. Mindlogicx's Tele-Education framework provides powerful online courses and virtual learning environment to deliver the highest caliber scalable e-learning systems to the most demanding environments.
